四年禮

Rheumatism, Lumbago. Sciatica, Sprains, Chil-\$ 14,898,450 blains, Whooping Cough, Croup, Asthma, Scre Throat, Bronchitis, Chronic Liver Complaint and all other Painful Affections where a Stimulating Application is required.

IN OBSTINATE AND CHRONIC CASES OF RHEUMATISM, &c., this Oil has proved of inestimable service; the speedy relief given in many instances of long standing has established it as a special popular remedy. The glow of warmth it produces over the surface of the skin renders it a valuable agent for all ailments where an outward remedy is required. In the treatment of Rheumatism and all local affections, it is designated to rank as one of the first and most successful remedies.

Its action is always prompt, always certain, and never fails in giving relief. The Directions as given should be strictly attended to.

As a Disinfectant, Decdorant and Antiseptic this Oil, being a complete sanitary agent for all purposes, needs only a trial to con-vince the most sceptical. The sweet and refresh ng aroma (although peculiar at first to some), supplies to a sick room an exhilazating and purifying effect. Special attention should be paid to the directions. 2 oz. bottles.....50 cents.

> SUPREME COURT. 2nd December.

In Original Jurisdiction. CHIEF JUSTICE.

CHINA AND MANILA STEAMSHIP CO., LIMITED, v. No CHOW FONG. Judgment was now given on the application of the plaintiffs for a rehearing of the above suit. Hon. A. J. Leach, instructed by Messrs. Wotton and Dencon, appeared for the plaintiffs. His Lordship said-This is an application for the rehearing of this suit under Section 68 of the Code. The case was heard by me without a jury The notice of motion states that the Chief Justice will be moved by Counsel on behalf of the plaintiff company for an order of rehearing of this suit in which judgment was delivered on the 28th October. Notice was served on the defendant. But unless leave is granted the pracice seems to be that the motion should be ex-parte. The motion too was to be before the judge who tried the case .. "the Court may in any case, in such terms as seem just, review any judgment, or order a rehearing or new trial with or without a stay of proceedings." That is the enactment of Section 68. "The Court" may mean one judge H.M.S. Pallas arrived at Singapore from or both judges s thing together, according to the interpretation clause—although it would be more

convenient that any application for a robonring

or a new trial were made to the Full Court at once in every case: nevertheless I find that applications to one judge sitting alone have been made where he had heard a case with a jury. There the application in one case was made on the ground of a finding against the weight of evidence, on a certain issue. The Judge granted W. Martin; Bostswain, Geo. H. Hawkins (in a rule, made it absolute, and then there was a lien of sub-lieutenant. The Pallas is one of the further appeal to the Full Court. I think that is an undesirable practice. I asked Mr. Ackroyd of quick firing and machine gans, viz. eight 4.7 in. to sit with me to hear this application, not (36 pounders) eight 3 pounders, and 4 machine knowing on what ground it was made nor of s procedent for it, but I found that Counsel did not want his application to be treated as an ap-The Russian steamer Vladimir arrived at | peal to the Full Court, to which he has a right Nagasaki from Vladivostock on the 19th No- from one Judge sitting alone. Chinese rulers, and it may be presumed never | ways forms on the surface; it is then brown will. These tribes, the Li, the Yao, the up small, and taken to the shed which first attracted our attention. The inspection shows that the glowing openings are the mouths of nots let into the furnace; into these note the broken glass is thrown, and when it is melted, a man sits in front of each pot with an assistant at his side; the man dips the end of an iron rod into the molton plass, withdraws it with a little

glass adhering, and by a rapid rotation of the rod forms a loop of glass which he throws to his assistant, who dexteronsly enteres to on the point of a cane with a handle protruding from the base. These comes are sometimes made of wood and sometimes of clay, the surface is very slightly corrugated so as to form rings of various sizes; by means of the handle the assistant spins the cane with the glass loop on it, at the same time pressing the glass gently with the edge of a blunt knife with which he guides the glass to the right sized corrugation. where it settles into a circular form and is then tossed on to a heap of finished bangles. The whole operation is performed in one-tenth of the time it takes to describe, as may be judged by the fact that from such pot bangles are turned out at the rate of eighty per hour, one furnace with six pots yielding from 3,000 to 3,500 bangles daily. The cost of production for the above quantity is about five rupees, and their sale realises about six rupees. As in some places ten or twelve kilns are kept working for several months at a time, the owners must make very handsome profits on their capial outlay. The workmen are very skilful, and know to a nicety how much glass is required for each sized bangle; they can turn out with causal facility rings small enough for Tom Thumb, or bangles large enough for Goliath, but beyond
